

Feature Form

44 PG302

Feature # 92-1

Block Prov. 166 N 165 E

Type of Feature Builder's trench 18th kitchen

Association South of southern foundation
F#92.3 (Fill of Feature)

EU Numbers _____

Dimensions length 435.5 cm, Width ^{tapers from 5cm} 7cm 11cm → 16.5cm approx D. 16.8 cm

Excavation Notes: Include EU # used, portion excavated, soil conditions, artifacts recovered, other observations

Trench runs parallel to wall, steep sides hit the flat bottom at a 90° angle. Wall has no runners for support. The brickwork is a English bond. At the bottom of trench rubble found possible associated with 17th century occupation. The trench runs closer to the wall at the eastern end and slowly tapers away from wall. Starts at 5cm → 16.5cm

Dated Started May 29, 92 Finished June 1, 92

Profiled _____ Plan Drawn _____ Photos _____

Samples Taken None

Excavated by (All) S. Hamilton

Builder's trench interrupted by post hole + mold. The trench is tapered possibly due to the inability of the builders to dig a true trench

Feature Form

44 PG302

Feature # 92-2

~~Block~~ Prov. 166.2N167.5

Type of Feature SHAPE OF POST HOLE

Association Shape of Post Mold Feature # 926

EU Numbers # 7017

Dimensions _____

Excavation Notes: Include EU # used, portion excavated, soil conditions, artifacts recovered, other observations

The shape of Post hole is flat sided with AN OVAL ARC edges forming a rectangular hole As the hole gets deeper the sides get gradually narrower to a rounded point at the bottom

Dated Started 6-1-92 Finished 6-2-92

Profiled _____ Plan Drawn _____ Photos _____

Feature # 92-3

Block Prov. 166N165E

Type of Feature Fill of Builders trench of 18th Kitchen

Association Feature #60 (Foundation Wall(s) of Kitchen)

EU Numbers #7006

Dimensions length 213.5 cm, width. Tapers from 5_{cm} → 7_{cm} → 11_{cm} up to 16.5cm

Excavation Notes: Include EU # used, portion excavated, soil conditions, artifacts recovered, other observations

Builders trench runs parallel to wall
 and as deep as the foundation wall (16.8cm).
 Artifacts removed include bone, brick rubble,
 animal bone, mortar and a few small corroded
 pieces of metal.

Dated Started May 29, 92 Finished June 1, 92

Description and Observations of EU. INCLUDE Soil: color, texture, inclusions. Use back if necessary.

Soil is light tan has a sandy texture. Artifacts recovered include brick rubble, animal bone, hog jaw, nails, tortoise shell fragment, unidentifiable metal hunks, mortar found throughout soil, small fragments of clam shell (possibly used in mortar).

The continuation of trench to right of post mold revealed few artifacts but a broken pipe bowl was found.
